

Build-A-Word

Place all of the affix cards face down in a stack. Place the base word work boards face up in a row.

Take turns picking the top card from the stack. Say the name of the affix and find the base word that will make a new word when the affix is added. Place the affix next to the base word and read the new word.

When you are finished, write at least five of the new words in your Notebook. Circle the affixes.
