

# Contraction Bingo

Place the word cards face down in a stack. Each student needs a bingo card and some counters.

Take turns picking the top card. Look for a matching contraction on your bingo card. If you have a match, put a counter on that contraction. Return the card to the bottom of the stack.

Keep playing until one partner covers the entire card.

When you finish, write at least 8 contractions and the words that make the contractions in your Notebook.
