

Meaning Exchange

Place the sentence cards with the underlined words face down in a stack. Place the sentence cards with blanks and the meaning cards face up.

Take turns picking a sentence card from the stack. Read the sentence to your partner and place it on the table. Your partner looks for a sentence card that shows the same sentence with a blank for the underlined word. Then your partner looks for a word or phrase that has the same meaning as the underlined word. Place the meaning card on the blank in the sentence. Place the sentences next to each other and read both sentences.

Continue until all sentences are matched.

When you finish, choose six word cards to record in your Notebook. Write the words on the word cards and the underlined word from the matching sentences.
