

Sentence Match

Place the header cards in a row face up. Place the sentence cards face down in a stack.

Take turns picking the top card from the stack. Read the sentence. Say a word using an affix that means the same thing as the underlined phrase.

Place the sentence card under the correct header card.

Continue until all of the sentences are sorted.

When you finish sorting the sentences, make a chart in your notebook showing the affixes and the new words.
